# Exact color match to Kronospan panels. One color range, four products.

Furndiy self-adhesive ABS products cover assembly points in the same color and texture as the panel surface. From 2026, screw covers, cable channel covers, rafix covers and pipe cover caps all share one common color range built on the **Kronospan decor catalogue — 177 colors**, matched code-for-code to Kronospan's own product IDs. Felt and EVA pads keep their own solid color options.

This edition replaces our previous in-house color range with the full Kronospan stock decor list, so every cover matches the panel it sits on without guesswork. Printed swatches are representative; request a physical sample for critical color decisions.
